

BHUSHAN KHANDAIT

Java Backend Developer

☎ +91-9529713527 ✉ khandaitbhushan6@gmail.com 🔗 [linkedin.com/in/iambhushan07](https://www.linkedin.com/in/iambhushan07) 🌐 khandaitbhushan.github.io

Summary

Junior Java Backend Developer skilled in Spring Boot, REST APIs, JPA/Hibernate, MySQL, and Spring Security. Experienced in building scalable backend applications, debugging complex issues, optimizing performance, and maintaining software quality. Strong command over DSA, API design, documentation, and industry-standard development practices. Adaptable, quick learner, and capable of contributing immediately to backend engineering teams. Open to relocation and ready to contribute immediately

Skills

Programming Languages: Java, C/C++

Backend Technologies: Spring Boot, Spring MVC, Spring Security, JPA/Hibernate, JDBC, Spring AI

API Development: REST APIs, JWT, JSON, scalable API architecture, API documentation

Databases: MySQL

Performance & Debugging: Troubleshooting, code optimization, performance tuning, exception handling

Tools & Platforms: Git, Maven, Postman, Docker, JUnit

Concepts: OOP, Data Structures, Algorithms, Microservices, Design Patterns, modular backend architecture

Soft Skills: Problem-solving, communication, collaboration, requirement analysis, documentation

Experience

Java Developer Intern

August 2025 – October 2025

Babhale Infotech Solutions LLP, Nagpur

- Developed and maintained Spring Boot-based backend modules improving request handling efficiency
- Implemented secure and scalable REST APIs while ensuring adherence to industry standards
- Debugged application issues, optimized SQL queries, and refined Spring components for faster execution
- Collaborated with senior developers and clients to analyze requirements for smoother delivery cycles
- Prepared structured technical documentation and contributed to deployment readiness

Projects

Resume Analyzer AI Platform | *Spring Boot, Spring AI, Docker*

November 2024

- Engineered an LLM-powered analysis backend with scalable API workflows
- Integrated JWT authentication and enforced secure access across all endpoints
- Containerized the application for smooth deployment and improved reliability
- Enhanced performance by refining service layers and optimizing request-response cycles

Movie Booking Backend System | *Spring Boot, JPA, MySQL*

September 2025

- Designed and implemented structured APIs for bookings, scheduling, and authentication
- Optimized entity mapping and query execution to improve system throughput
- Incorporated robust validation, centralized exception handling, and maintainable modular layers
- Troubleshoot and debugged backend logic ensuring stable runtime behavior

E-Commerce Backend System | *Spring Boot, Spring Security*

October 2025

- Developed secure product, cart, and order management APIs aligned with best coding practices
- Configured Spring Security with JWT to safeguard sensitive operations
- Improved application performance through optimized service orchestration and DB operations
- Collaborated on deployment strategy and ensured proper documentation of APIs

Achievements & Certifications

HackerRank — 5-Star Gold Badge in Java

March 2025

LeetCode — 100 Days Coding Badge

May 2025

Physics Wallah — Java Data Structures & Algorithms

July 2025

Code For Success — Java Full Stack Development

October 2025

Education

Priyadarshini College of Engineering

July 2022 – July 2026

Bachelor of Information Technology — CGPA: 7.50/10

Nagpur, Maharashtra
